

April 6, 2006

Dear Sir:

Please listen to the voice of the people, we do not want to let Walmart open banks. A Walmart bank would pose a serious threat to community banks just like they have done to other sectors of our communities. You must ask yourself how does this help people? It won't, it will only help Walmart gain more more. And can they be trusted?

Please encourage the BOD of the FDIC to attend this important and critical hearing.

Thank you for your time.

Sincerely,
Delbert Fuwell
A register Voter.
